

# Proper Cart Set Out

Recology San Mateo County would like to remind you how to properly set your carts out for service.

## SPACE YOUR CARTS O-U-T!!

**Like this:**

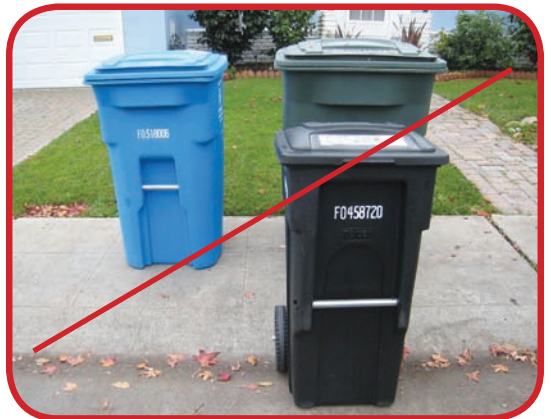

Carts must be placed curbside (in the street) with wheels against the curb, or roadside, with about 24 inches between each cart. Arrows on lids should point toward the street.

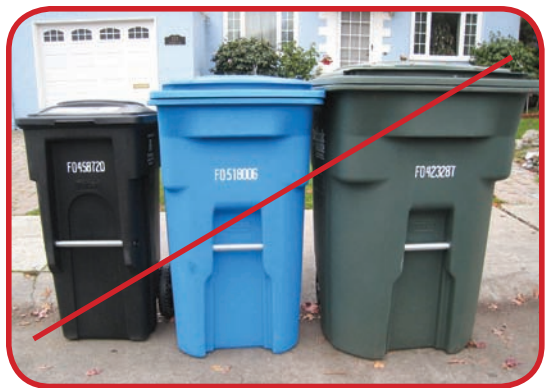

**NOT like this:**

Carts should face the same direction, with the wheels against the curb.

Make sure your carts are set out 2 feet apart.

If you have questions about your cart set out, please email us at [carts@recology.com](mailto:carts@recology.com) or call us at (650) 595-3900.
